ClinicOS

ClinicOS — The Smart EMR Built for Indian Specialty Clinics

> **One platform. Every specialty. Zero paperwork.**

Why ClinicOS?

Indian specialty clinics lose 2–3 hours every day to paperwork, missed follow-ups, and disconnected billing. ClinicOS replaces your register, prescription pad, and WhatsApp reminders with one modern platform — designed specifically for how Indian clinics work.

No generic foreign software. No complicated setup. Just a clinic that runs smoother from Day 1.

Built for Your Specialty

Dermatology

- Body diagram with lesion mapping — mark exactly where conditions appear
- PASI, IGA, and DLQI scoring with automatic trend tracking
- Before/after photo comparison with patient consent management
- Procedure tracking — LASER, PRP, Botox, Chemical Peel, Microneedling
- Drug interaction alerts for common dermatology medications (Isotretinoin, Methotrexate)

Dental

- 32-tooth FDI chart — click any tooth to record treatment history
- Treatment plans with cost estimates sent directly to patients
- Periodontal charting (6-point probing)
- Lab work orders for crowns, braces, and dentures
- X-ray attachment per tooth

Ophthalmology

- Visual acuity log (Snellen/LogMAR, OD/OS, near and distance)
- Full refraction table — Sphere, Cylinder, Axis, Add, Prism
- IOP readings with NCT/GAT method tracking
- Slit lamp examination (Lids, Conjunctiva, Cornea, AC, Iris, Lens)
- Fundus findings — disc, CDR, macula, vessels, periphery
- One-click spectacle and contact lens PDF prescription
- Systemic disease flags (Diabetic retinopathy grading, HTN retinopathy)

Physiotherapy

- ROM (Range of Motion) dynamic table for any joint
- Manual Muscle Testing (MMT) grading — 0 to 5
- VAS Pain Scale with severity color coding
- FIM (Functional Independence Measure) — 18-item scoring
- Barthel Index — 10-item functional mobility assessment
- WOMAC Scale — 24-item knee/hip osteoarthritis measure

- Home Exercise Programme (HEP) generator with WhatsApp delivery

Orthopaedics

- Joint examination templates
- Fracture classification (AO system)
- Post-surgical rehabilitation tracking

ENT

- Audiogram entry and tympanogram
- Nasal endoscopy findings
- DHI Vertigo Scale

Gynaecology

- Obstetric history (LMP, EDD, Gravida/Para)
- Antenatal visit tracking
- Menstrual cycle tracking
- Colposcopy findings

Features Every Clinic Needs

WhatsApp Automation

Stop chasing patients manually. ClinicOS sends automatically:
- Appointment confirmation the moment you book
- Reminder 24 hours before (with confirm/reschedule link)
- Reminder 1 hour before
- E-prescription after the consultation
- Follow-up reminders when due
- Lab report notification when results arrive
- Birthday greetings
- Payment reminder for overdue invoices

Digital Prescription

- Indian drug database with 50,000+ medicines
- Generic and brand name search
- Drug interaction alerts (50+ critical interactions pre-loaded)
- Patient allergy cross-checking
- Dosage auto-suggestions
- Prescription templates per condition
- Beautiful e-prescription PDF in seconds
- Specialty PDFs — spectacle, contact lens for ophthalmology

Smart Scheduling

- Doctor, room, and equipment slots — all in one calendar
- Walk-in token queue with wait time display
- Online patient booking page (`yourname.clinic0s.com`)

- Advance payment collection at booking via Razorpay
- Pre-visit WhatsApp questionnaire sent automatically
- Teleconsultation meeting URL attached to appointment

Billing & Payments

- GST-compliant invoices (with SAC codes)
- PDF invoice generation
- Razorpay payment links — UPI, cards, net banking
- QR code payments
- Partial payment tracking
- Insurance/TPA claim support
- Daily automatic payment reconciliation

Photo Vault

- Unlimited clinical photo storage
- Before/after comparison (side-by-side and slider)
- Body map photo tagging
- Photo timeline per body region
- Digital consent signature capture
- Encrypted storage option

AI Documentation Assistant

- Voice-to-EMR dictation (English + Hindi)
- Automatic visit note generation
- Consultation summary for patient handout
- Drug interaction intelligence

Compliance & Integrations

INTEGRATION	WHAT IT DOES
ABDM / ABHA	Create patient ABHA IDs, link health records, FHIR R4 sharing
WhatsApp Business	Meta Cloud API — approved templates, 24h sessions
Razorpay	Payments, subscriptions, payment links, webhooks
AWS S3	Secure cloud photo and document storage
GST	SAC codes, compliant invoice format
Lab Partners	Dr. Lal PathLabs, SRL, Thyrocare, Metropolis, Pathkind

Hospital, lab, pharmacy — on the roadmap

ClinicOS today is built for **Indian specialty clinics and groups**. The product roadmap extends to **hospitals** as a first-class tier: **HIMS-style** capabilities including **IPD** (admissions, bed board, ward workflows), **hospital OPD**, a **full in-house lab (LIS)** beyond partner integrations, and a **pharmacy** module (stock, dispensing, formulary). **Licensed bed count** is **configured by platform super admin** per customer (commercial entry from about **50 beds**, scalable upward).

India ships first (GST, ABDM, Indian drugs, UPI). **Other countries** (for example **US** and **Malaysia**) are planned as **localization and compliance packs** on the same core—language, currency, regulatory and billing semantics—after the India base is GA.

Pricing Plans

PLAN	BEST FOR	PRICE
Solo	Single-doctor clinic	₹999/month
Small	2–5 doctors	₹1,999/month
Group	5–15 doctors / chain	₹3,999/month
Enterprise	Hospitals & large groups	₹7,999/month

All plans include a **14-day free trial** — no credit card required.
Annual billing saves up to 20%.

How to Get Started

1. **Sign up** at https://clinic0s.com/ — takes 2 minutes
2. **Set up your clinic** — add doctors, rooms, services
3. **Import patients** or start fresh
4. **Go live** — your first appointment, today
